Trees	
Deciduous, Shade and Ornamental	4-60
Large Specimen	61-68
Vines	4-60
Water Lillies and Lotus	92

PRICE LIST NO. 143

# ..The.. Siebenthaler Company NURSERYMEN

SIEBENTHALER AVENUE AND CATALPA DRIVE

DAYTON, OHIO

*Established 1870*

## LOCATION

**T**he CATALPA DIVISION of our Nurseries is located at the corner of Siebenthaler Avenue and Catalpa Drive, which is three and one-half miles northwest of the center of the city of Dayton.

May be reached by going out Salem Avenue (S. R. No. 49) to Catalpa Drive, and then north one mile; or out North Main Street (S. R. No. 48) to Siebenthaler Avenue and then west one-half mile.

Our MORaine DIVISION is located six miles south of Dayton at Moraine City.

May be reached by going south on U. S. No. 25 out of Dayton to Springboro Pike (S. R. No. 747) and then left one-third mile to entrance of Nursery; or down Lamme Road to Polo Field which lies opposite the east entrance to the Nurseries.

Our MAIN OFFICE is on Catalpa Drive at Siebenthaler Avenue, and may be reached at all times by local or long distance telephone.

RAndolph 1154

Please Read Carefully

**DIRECTIONS FOR ORDERING:-** Write name and address plainly and advise time and method of shipment; otherwise we will use our best judgment and ship by the shortest and safest route.

**PRICES:-** Prices in this list cancel all previous lists and quotations. They are subject to change without notice and to stock being unsold upon receipt of order. They include packing costs, except on excessively bulky material and are f.o.b. our freight or express station. For local orders they include delivery to customer if within ten miles of our Nursery. Cost of delivery by truck to more distant points will be quoted upon request.

**SUMMER PLANTING:-** An extra charge is made for balling deciduous plants not marked B&B either in dormant season or in full leaf for summer planting.

**TERMS:-** Cash with order, except to persons who satisfy us as to their financial responsibility, when accounts will be due in thirty days from date of invoice.

**INSPECTION:-** A certificate of inspection by the Ohio Department of Agriculture will be attached to each shipment.

**LANDSCAPE SERVICE:-** We maintain a thoroughly trained landscape organization fully equipped to handle any landscape project including designing, consultation, and planting. Ask for special quotations on such work.

**GUARANTEE:-** All plant materials are warranted to be true to name, up to size specified and in good healthy condition when delivered, otherwise replacement will be made or original amount paid will be refunded. We cannot, however, guarantee the growth of plants not planted by us. This is due to the perishability of such material and the fact that their care and up-keep is beyond our control. Any plants planted by our Landscape Department and given proper care by the owner are guaranteed to grow and thrive satisfactorily for one year from date of planting. Those failing to do so will be replaced without charge the following planting season.

Please Read Carefully

This list of hardy ornamental nursery stock comprises all the worth while varieties of plant material adapted to this section, and will fulfill practically every need for landscape development.

Those items marked "B&B" include the price of balling in the price quoted. During certain seasons of the year other varieties may be successfully transplanted by digging with a ball of earth, for which an extra charge will be made. See schedule below.

This stock is all well grown, frequently transplanted or root pruned, properly sheared and trimmed to retain the natural character of the plant and to improve its density and form and to facilitate transplanting.

In addition to the usual sizes listed herein, we grow many varieties of shade and evergreen trees into large finished specimens. These are well spaced and carefully grown, and are not to be confused with left-over trees in old nursery rows. These involve the use of special moving equipment and are quoted on pages 61-68, which price includes moving and planting with a large ball of earth.

B & B SCHEDULE

Extra charge for balling and burlapping plant materials not quoted B&B in price list.

## ROSES

Strong, two year old, field grown plants of finest quality, in the following varieties:

POTTED PLANTS of most varieties may be had after May first at an additional cost of 25¢ each. Our new method of potting roses allows for full development of root growth, since each plant is growing in three times the amount of soil formerly provided.

## HYBRID TEA ROSES

	Each	Per Dozen

## LARGE SPECIMEN TREES

### NURSERY GROWN - TRANSPLANTED

These trees are all grown far apart in nursery rows, having been frequently transplanted to insure a good root system and render them especially suited for future moving. The caliper measurement is taken at a point twelve inches above the ground.

The saving of time in planting such trees is so marked that scarcely any home owner can afford to plant the usual small tree which would require ten to fifteen years to equal these in size.

The prices quoted below include moving and planting with a large ball of earth, but are subject to deviation, dependent upon conditions at point of planting, distance, et cetera.

## HARDY HERBACEOUS PERENNIALS

### AND ROCK GARDEN PLANTS

The color, ultimate height and principal season of bloom are given as an aid in arranging pleasing color combinations and in securing a succession of bloom throughout the season.

An asterisk (\*) indicates those varieties most suitable for rockeries or alpine gardens.

## PAPAYER orientale

## Oriental Poppy

Siebenthaler Poppies are strong, field-grown plants, ready for planting directly into their permanent place in the garden or perennial border.

The following alphabetical list contains not only the latest introductions of the leading plant breeders of this country and Europe but many originated by us.

\*Indicates preferred varieties recommended by National Oriental Poppy Committee.

	<u>Each</u>	<u>Per 3</u>
*AUSTRALIA. 42 in. Large massive flowers of oxblood or spectrum-red on rigid stems. A fine, new introduction. Hybridized in Australia_____	\$ 1.00	2.50
*BETTY ANN. 24 in. (Siebenthaler 1935) This beautiful crinkled flower of La-France-pink has caused more favorable comment than any of our other hundred or more promising new sorts. There are no spots. It is a most profuse bloomer and a single plant makes a veritable bouquet in itself. And more than that, it lasts longer as a cut flower than any other variety so far observed._____	1.00	2.50
*BIG JIM. 36 in. (Siebenthaler 1935) Mammoth, gorgeous flowers of deep maroon, combining the outstanding color of Lula A. Neeley with the sturdy, vigorous growth of Joyce. Tops the list of reds_____	1.00	2.50
*CAVALIER. 34 in. New Neeley introduction. Nopal red flower, crinkly petals, fine, erect stem carrying well-proportioned dark green foliage_____	.50	1.25
*CERISE BEAUTY. A distinct cerise-pink_____	.75	2.00
*DAINTY LADY. 28 in. Very delicate shade of shell-pink, rose blotch_____	1.00	2.50
*DELICATA. 30 in. Unusual in color. Purplish vinaceous or old-rose-pink. Heavy bloomer and does best where shaded from mid-day sun_____	.75	2.00
*ECHO. Neeley's new seedling, delightful silvery pink, with frosted sheen, maroon spot_____	1.50	4.00
*ENCHANTRESS. Neeley's seedling of Masterpiece. Soft lilac-rose. A magnificent new variety. Does well in partial shade_____	1.00	2.50

	<u>Each</u>	<u>Per 3</u>
PAPAYER orientale		
*ETHEL SWETE. An English variety similar to Mrs. H. G. Stobart, of pleasing cerise-pink, flowers of medium size. Shiny green foliage, fewer hairs than average	\$1.00	2.50
*GLOWING EMBERS. Deeply crinkled, cup-shaped blooms. Medium red	1.00	2.50
*GOLD OF OPHIR. 24 in. New Neeley introduction. Golden orange which develops into the nearest yellow of any Oriental Poppy as the plant grows older. May be disappointing the first year, but will repay you for waiting	.50	1.25
*HELEN ELIZABETH. 24 in. (Siebenthaler 1935) This is a real acquisition of light La-France-pink. The petals are deeply crinkled and show no evidence of spots of blotches. Just the right shade to plant with light blue Delphiniums. Longest blooming period of any known Poppy.	1.00	2.50
*HENRI CAYEUX. 30 in. Veronia purple, might be called old rose shading into burgundy. An early bloomer and good grower with distinctive gray-green foliage. Flowers most attractive where protected from mid-day sun	1.00	2.50
*HERCULE 42 in. Immense flower, often 9 inches across, of true scarlet, borne on extra tall and sturdy stem. A leader in its color class	.50	1.25
*JEANNIE MAWSON. 32 in. Geranium-pink flowers of good size on erect stems	.50	1.25
*JOHN III. 21 in. (Siebenthaler 1935) This is a choice Poppy with dainty flowers of coral-pink. A vivid color with no base spots. Besides, the petals remain crinkled until they drop. A new, lasting quality seems to be developed here, holding up in water appreciably longer than the older varieties	1.00	2.50
*JOYCE. 48 in. Spectrum-red or may be described as cherry-red in color. Flowers are of medium size, borne on tall, perfectly straight stems. We consider it one of the very best garden varieties, of the older sorts	.50	1.25
*JULIA BUCK. 34 in. Deep coral-pink, somewhat deeper in color and larger than Mrs. Perry. Stems are rigid and foliage is well proportioned	1.00	2.50

	<u>Each</u>	<u>Per 3</u>
PAPAYER orientale		
JUNE DELIGHT. Neeley hybrid of bright, silvery pink, magnificent flower_____	\$ 2.50	6.50
*KING GEORGE. Large, fringed flowers of brilliant scarlet_____	1.00	2.50
*LACH'S KOENIGEN. Peach-red with pink cast_____	.75	2.00
*LITTLE SHRIMP. 18 in. (Siebenthaler 1935) A veritable gem with great quantities of very small shrimp-pink flowers on slender, erect stems. No spots. Of most unusual size and habit that gives it a place at the front of the border_____	.75	2.00
*LULA A. NEELEY. 34 in. Very fine. Flowers are of medium size and their color is between spectrum-red and carmine. Does well as a cut flower_____	.50	1.25
*MAHONY. 44 in. Oxblood-red or mahogany in color. Very unusual and a fine garden variety_____	1.00	2.50
*MANDARIN. 28 in. A splended Chinese red with no spot in the flowers of established plants_____	.50	1.25
MARY ELLEN. 24 in. (Siebenthaler) This new one is unusual in that it opens flat, making a very different but most pleasing effect. It is a pale shrimp-pink and produces most abundantly_____	1.00	2.50
*MARY JANE MILLER. Dr. Neeley named this latest introduction of his in honor of his mother. A perfectly gorgeous, large flower of geranium-pink, tall growing, early, and a prolific bloomer_____	1.00	2.50
*MAY SADLER. 30 in. Salmon-pink_____	.50	1.25
*MRS. PERRY. 29 in. The old favorite salmon-pink or geranium-pink of Ridgway. Rather loose growing plant_____	.50	1.25
*NANCY. 28 in. Deep crimson with glossy black blotches at base of petals_____	1.00	2.50
*PERFECTION. 32 in. Large, well-formed Jasper pink or light coral flowers on sturdy, upright stems. Well-shaped plant and splendid foliage_____	.50	1.25
*PERRY'S BLUSH. Blush-white_____	2.50	6.25
*PERRY'S WHITE. Satiny white, dark maroon base_____	1.00	2.50

	<u>Each</u>	<u>Per 3</u>
PAPAYER orientale		
*SASS PINK. Large flowers of delicate flesh-pink, light gray-mauve center. Crepy texture_____	\$ 1.00	2.50
*SPLENDOR. Extra large salmon-pink_____	1.00	2.50
*TOREADOR. 32 in. A genuine carmine Poppy of immense size, 9 inches across, with beautiful base markings and very crinkly. One of the best dark red Poppies_____	1.50	4.00
*TRILBY. 48 in. Dark, lustrous red. On tall stems_____	1.50	4.00
*WATTEAU. 24 in. Shrimp-pink or flesh-coral colored, small sized, but abundant flowers on compact, well-formed plant. This is the finest Poppy for border planting_____	1.00	2.50
*WUNDERKIND. 33 in. Considered the finest cerise-colored Poppy, true begonia-rose shade. Much larger flowers and stronger than Ethel Swete or Mrs. H. G. Stobart, which are often substituted for it. Well-shaped plants and sturdy stems with excellent foliage. Fine for cut flowers_____	1.50	4.00

	<u>Three</u>	<u>Dozen</u>
PENSTEMON		
Garnet. 12-18 in. Large flowers of rich garnet color, long blooming_____	1.50	5.00

## PHLOX

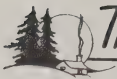

*divaricata laphami. Lavender, 12 in. April and May_____	1.00	3.50
decussata		Hardy Phlox
2-4 ft. July and August		
AFRICA. Carmine red with blood-red eye. 30 in._____	1.00	3.50
AUGUSTA. Cherry-red. Plant Patent #252_____	1.50	5.00
BORDER QUEEN. (New) An improved Jules Sandeau. Dwarf pink 20 in._____	1.00	3.50
GEORGE STIPP. Glowing salmon_____	1.00	3.50
LILLIAN. Large heads of pure pink. 24 in._____	1.00	3.50
MARY LOUISE. White_____	1.25	4.50

YUCCA		Adams Needle
filamentosa. White, 6-7 ft. June and July—	1.00	3.50

## FRUIT TREES AND SMALL FRUIT PLANTS

All of our fruit trees are carefully grown, true to name, healthy and well developed young trees. They are graded according to the Horticultural Standards of the American Association of Nurserymen. The caliper is taken two inches above the bud. Unless specially mentioned, the apple, cherry, plum, pear and quince trees are two years old, and the peach trees are one year old.

	<u>Each</u>	<u>Each</u>	<u>Each</u>
11/16 in. diam. $4\frac{1}{2}$ -6 ft. ——— \$	1.50	1.35	1.10

### Summer Fruiting Varieties

MELBA. Solid red. Same quality and appearance as McIntosh. A good variety for family and roadside market use.

YELLOW TRANSPARENT. The outstanding yellow summer apple. This type is tall-growing and habitually bears good crops of large, golden, juicy fruit.

### Autumn Fruiting Varieties

MAIDEN BLUSH. Pale lemon-yellow with crimson cheek. Comes into bearing young and is a reliable cropper.

WEALTHY. Handsome appearance and good flavor. One of the finest varieties of its season and especially good for commercial purposes.

### Winter Fruiting Varieties

CORTLAND. An improved McIntosh with brighter red fruit. Very juicy and a good keeper.

GALLIA BEAUTY. A superior variation of Rome Beauty. Solid red, large, smooth skinned fruit. November to February.

GRIMES GOLDEN. One of the best pure yellow winter apples for home and commercial use.

JONATHON. An early bearing variety, red, medium size, and very good quality. Tree never large but productive.

NORTHERN SPY. A large striped red apple, crisp, juicy and aromatic.

SOLID RED DELICIOUS. Large, dark red fruit with fine flesh, crisp and juicy, with a delightful aroma. Annual bearer.

WINESAP - Turley variety. Dark, rich red, larger and bears younger than the old Winesap.

## APPLES, DWARF

These miniature apple trees are ideal for garden or lawn planting, have the same kind of fruit as the standard varieties of the same name, but only grow to be 8 to 10 feet high and start bearing earlier than the larger trees.

### Varieties

BING. Very large, dark brown, almost black; flesh firm, sweet, rich, delicious. One of the most profitable. July.

BLACK TARTARIAN. Very large, black, juicy, rich. June.

EARLY RICHMOND. Medium dark red, juicy, rich acid.

Best. A dependable cropper. June.

MONTMORENCY. Large, red, productive, ten days later than Early Richmond. Surest cropper for this climate.

NAPOLEON. Sweet cherry, very large, rich, pale yellow with red cheek.

PAUL ROSE. A white sweet cherry of large size, tender and juicy, with rich flavor.

## PEACHES

9/16 in. diam. 4-5 ft. _____	1.00	.85	.75
------------------------------	------	-----	-----

### Early Ripening Varieties

CHAMPION. A large, handsome, early variety, creamy white, with red cheek, sweet, rich and juicy.

GOLDEN JUBILEE. A new variety that is highly recommended. Mid-season and of unexcelled quality. Yellow flesh with distinct blush.

HALEHAVEN. Large, beautifully colored, yellow fleshed, freestone peach, two weeks earlier than Elberta. Thrifty grower and very hardy tree.

ROCHESTER. The fruit is large, yellow, sweet, juicy and of delicious flavor; keeping and shipping well.

SOUTH HAVEN. It is better than average size, globular, prolific. Its meat is yellow, juicy and delicious; cheek yellow with one red blotch.

## Mid-season Varieties

**EARLY ELBERTA.** Ripens about a week earlier than Elberta; otherwise the same, or a trifle better quality.

**ELBERTA.** Large, yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific, sure bearer and hardy. The leading market variety.

**J. H. HALE.** Golden yellow with deep carmine blush. Larger, five days earlier, and superior quality to Elberta.

## Late Ripening Varieties

**WILMA.** The fruit is as large as Elberta, its parent, but not quite so elongated; ripens about ten days later.

## PEARS

### **SIEBENTHALER'S GRADUATED LAWN FERTILIZER (4-8-8)**

A complete plant food especially prepared for feeding lawns. This is not to be confused with ordinary farm fertilizers of the same analysis. The materials furnishing the plant foods in this fertilizer are especially selected to provide a gradual but steady diet for the lawn over a long period of time. It is manufactured especially for us and was blended to suit conditions in our own Miami Valley.

containing about 20 bushels of loose peat,  
sufficient to cover 240 square feet one  
inch deep \_\_\_\_\_ 4.50

SPHAGNUM MOSS. Indispensable for rockeries

Per bale \_\_\_\_\_ 3.00

## LAWN SEED

**E**xhaustive tests and years of experience have proven certain varieties of grasses to be best for soil and climatic conditions in the Miami Valley. These are carefully blended to give the best possible combination of permanent grasses for a thick enduring lawn. Only the highest quality seeds are used in these mixtures and our lawns show the wisdom of using only the best. They are offered in the following standard mixtures for different conditions:

### SIEBENTHALER'S SPECIAL LAWN SEED MIXTURE #1

This has proven itself to be the best for normal conditions of seeding new or old lawns where soil is fertile
